

# Aluminate

Aluminum Composite Material

# INTRO

Alumanate is committed to the manufacturing of aluminum composite material (ACM) for signage, building and construction applications such as architectural wall cladding, digital print signage and other creative uses.

Our company focus is to provide quality ACM that is paralleled with the best pricing in the industry.

# COMPANY INSIGHTS

Founded in Eugene Oregon,  
*Go Ducks!* We recently  
relocated to Orange County  
California and this is now  
where our distributor center  
is located.

## 01 FLEXIBLE TERMS

We offer NOTHING up front, prepaid shipping and up to net 90 payment terms with multiple discount opportunities.

## 02 HOLD OVER STOCK

We have over a dozen warehouse locations across the U.S. that we are able to store your excess stock at until you need. This ensures that you will have a constant flow of material at all times.

## 03 PRICING

On average, our material cost is 20% less than the other ACM manufacturers. We do not raise our sheet price to include blanketed shipping cost; instead we provide separate transparent shipping rates that are updated biweekly.

# MATERIAL DESCRIPTION

Alumanate is an ultra-smooth, maintenance-free and long-lasting product that is excellent for all types of printing, painting, die-cutting, mounting and vinyl wrapping.

## **Characteristics**

- Excellent for digital printing as well as mounting
- Superior surface protects expensive digital and screen printed graphics
- Provides excellent durability in outdoor applications
- Won't bow or oil can
- Can be routed and returned to add dimension or roll-formed to deliver sweeping curves
